

Feb 2019

Dear Distributor,

Colortrac ceased volume manufacture and sales of the Colortrac SmartLF Gx+42 (2011) & Gx+T42 (2011) model in June 2014 and therefore this scanner range will be end-of-life (no longer supported) after 31<sup>st</sup> May 2019. We no longer guarantee supply of parts after this date.

The only model in this range that is supported after this date is the Gx+T56 (2011). As this shares some common parts with other Gx+ scanners then if you have a requirement for parts for any of the models listed below then send an enquiry to [sparesorders@colortrac.com](mailto:sparesorders@colortrac.com). Include your scanner serial number as this will identify exactly what model you have.

Gx+28  
GX+T28  
Gx+28 (2011)  
Gx+T28 (2011)  
Gx+42  
Gx+42T  
Gx+56  
Gx+T56  
Gx+56 (2011)

This letter provides notice of this change in status.

Thank you and kind regards.

**Paul Jones**
