- No part of this product or publication may be reproduced, copied or transmitted in any form or by any means without permission from: Colortrac Ltd. Units 3 – 5 Brunel Court. Burrell Road. St Ives, Huntingdon, Cambridgeshire, PE27 3LW. United Kingdom.
- The product and the contents of this publication may be changed without prior notification.
- Colortrac Ltd makes every effort to ensure this publication is free from error. Misprints, errors or quality observations should be reported to Technical Support, Colortrac Ltd.
- Colortrac Ltd shall not be liable for any damages, errors, issues or events that result from the use of the equipment or this manual.
- SCi and SC scanners have different external colours, but the serviceability is exactly the same, so colours may differ, but the process is the same.

1 Updating Firmware

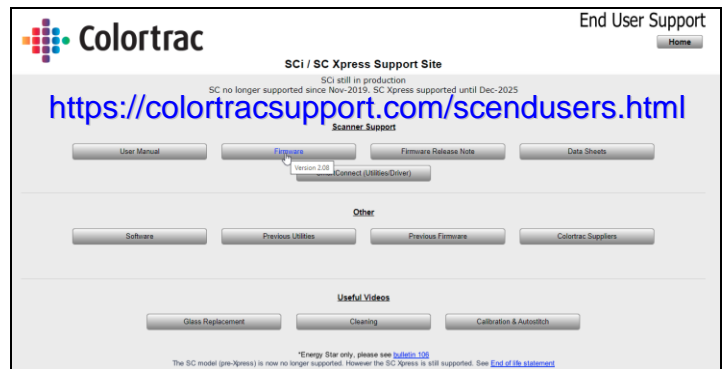

1. Double click the SmartLF SC Utilities icon.

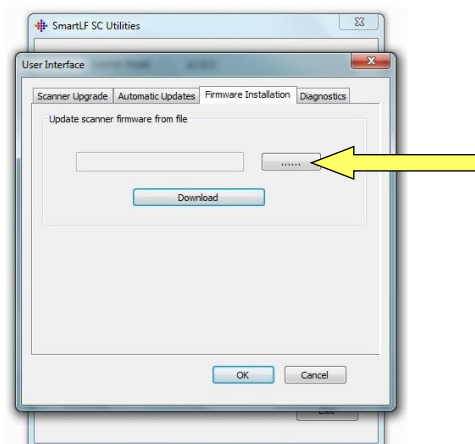

2. To enter the second level utilities Click 'Utilities' at the bottom of the front page.

3. Download the latest firmware from the download site:

4. Click the browser button to locate the downloaded firmware. After selecting the firmware #####.cab file, click download.

5. Agree to the warning message.

*NOTE: It is important to allow the firmware to complete. Although the **Error! Reference source not found.** now carries a backup firmware, there is still a possibility of irreversible corrupting if the download is disturbed.*

6. Once the download has finished it will request the scanner and software are both Re-cycled.
